The INTESA project "Improving Maritime Transport Efficiency and Safety in the Adriatic" is pleased to invite you to the national event "*Information Technology for Safety: synergies on National Single Windows integration for the Adriatic and Ionian Sea*" during which the best practices on **maritime safety**, **environmental sustainability** and **digitalization** of the maritime transport logistic chain will be presented, in the framework of the pivotal role the maritime information sharing has in building a sustainable and competitive multimodal transport system.

Furthermore, a specific session will be dedicated to the **synergies between the projects INTESA and EUREKA** "*Adriatic-Ionian joint approach for development and harmonisation of procedures and regulations in the field of navigation safety*", which is funded by the **ADRION INTERREG** Programme. The session will focus on the importance of **systematic cooperation and coordination among Maritime Administrations** and on the contribution of the 2 projects to the **EUSAIR strategy in developing a safe, secure and competitive intermodal port system** in the AI region.
